# WHY ACQUIRE & HPE

Welcome to Acquire, your award-winning IT procurement partner. A place where businesses pay less for their IT purchases and experience a superior level of customer service.

Acquire is your go-to partner for future-driven IT products and solutions. We are a Hewlett Packard Enterprise Gold Partner and have a strong relationship with experts from all fields.

Hewlett Packard Enterprise is the global edge-to-cloud Platform-as-a-Service company that helps organisations accelerate outcomes by unlocking value from all of their data, everywhere.

Together, we are able to customise a solution to suit your business.

We offer customised pricing models and finance options along with purchasing and reporting tools to assist your company with future planning.

Acquire is a New Zealand owned business built to support New Zealand and Trans-Tasman customers.

# SERVICES AND SYSTEMS

Software-defined, enterprise servers, and server systems that help you operate at business speed.

# Why choose HPE ProLiant rack and tower servers?

To meet the growing demands of your business, HPE ProLiant rack and tower servers redefine compute economics by delivering more compute and storage capacity, right-sized compute with flexible choices, and lower compute energy and floor space consumption. While all four families are designed to handle multiple workloads—IT infrastructure, web, business applications, collaboration, analytics, Big Data, and more—each family is optimized for specific use cases.

The rack and tower servers are available in these families:

**HPE ProLiant Easy Connect**  
Reduce TCO with a managed solution for retail sites and remote offices

**HPE ProLiant MicroServer**  
Perfect for micro and small businesses

**HPE ProLiant ML family**  
Expandable tower servers; ideal choice for remote and branch offices and growing businesses

**HPE ProLiant DL family**  
Versatile, rack-optimized server with a balance of efficiency, performance, and management

# IT FINANCING SOLUTIONS TO ADDRESS ECONOMIC CHALLENGES

A variety of financial and asset lifecycle solutions you can leverage right now to help alleviate some of your current financial strain, and position you for future success.

Typical finance models call for keeping IT equipment in place for several years, but with the current pace of innovation, most systems are obsolete far sooner than that. HPE solutions bring the agility you need to keep up with rapidly evolving technology.

Hassle-free set-up and management

Remote and multi-site management: Instant On  
mobile app and Cloud-based web portal

# Design for the circular economy

Meet your environmental, regulatory, and financial purchasing objectives through sustainable product procurement

## **Realize savings with built-in efficiency**

As billions of connected devices continue to come online, computing demand will exceed today's infrastructure, consuming energy and materials at unprecedented rates. As awareness of these issues increases, organizations must factor internal and/or regulatory constraints into any purchasing decision. Our holistic approach to product design results in lower product power consumption and reduced waste—reducing total cost of ownership (TCO) for our customers and contributing to a more circular economy.
